Water-Saving Solutions Without Compromising Product Performance

At CFG, we're dedicated to creating high-performing, water-efficient products that have a positive impact on the environment. As a recognized industry leader in sustainability, we understand the significance of each drop of water and the importance of conservation in the multi-family market. Our commitment doesn't end here; we're actively engaged in sustainable business practices and ongoing environmental protection initiatives, reinforcing our dedication to conservation.

Our Performance Minded Offerings:

- Water-efficient products meeting WaterSense® Criteria and complying with CEC Regulations.
- Lavatory faucets with either 1.2 gpm or 1.0 gpm optimized flow rates, using 45%-55% less water.*
- 1.0 gpm kitchen faucet and kitchen wand options.
- Expertise to help you attain LEED and other sustainable certifications for green building.

The CFG Advantage

Create Cohesive Spaces

Eliminate the guesswork in fixture selections with our matching suites, which provide a wide range of products, including kitchen and bathroom faucets, accessories and tub/shower products. Elevate the overall style of the space with a seamless, cohesive design while streamlining sourcing and servicing needs.

Enhance Conservation and Performance

CFG lavatory faucets meet WaterSense standards, with multiple suites offering lavatory faucets with 1.0 gpm flow rates to save water without sacrificing performance. Select kitchen collections offer 1.0 gpm pull-down options as well as 1.0 gpm wand and aerator kits to further increase efficiency.

Enhance Shower Style and Satisfaction

Elevate shower design and enhance users' daily routines with a CFG rainshower showerhead. These showerheads are available in several styles to coordinate with CFG bathroom suites, are easy to install, and provide an easy style upgrade while increasing user satisfaction.

Slate®

Kitchen / Bathroom / Shower / Valves

Coordinates with Summit™ Accessories

Standout Modern Style

Whether it's a converted warehouse loft or a sleek glass apartment tower, the demand for dynamic, contemporary spaces continues to grow. With flat surfaces, square lines and three finish options, Slate has the clean, sophisticated look to match the modern demands of on-trend design.

Innovative features and sleek design make Slate® a win for multi-family developers and residents

Featured in Folksong Branch Apartment Homes

The Folksong Branch Apartment Homes in Georgia redefine modern living, and the Slate Collection from CFG has proven to be the perfect complement. While residents enjoy the benefits of style and functionality, Folksong enjoys durable construction and low maintenance, easy installation and unbeatable water-saving flow rates, resulting in significant utility savings.

Capstone®

Kitchen / Bathroom / Shower / Valves

Charming Traditional Styles

With two-handle faucets for kitchens and baths, Capstone fulfills the need for classic styling, while standing up to the rigors of all multi-family properties. Additionally, a one-handle pullout option for the kitchen and handheld showers for the bath add even more functionality to this collection.

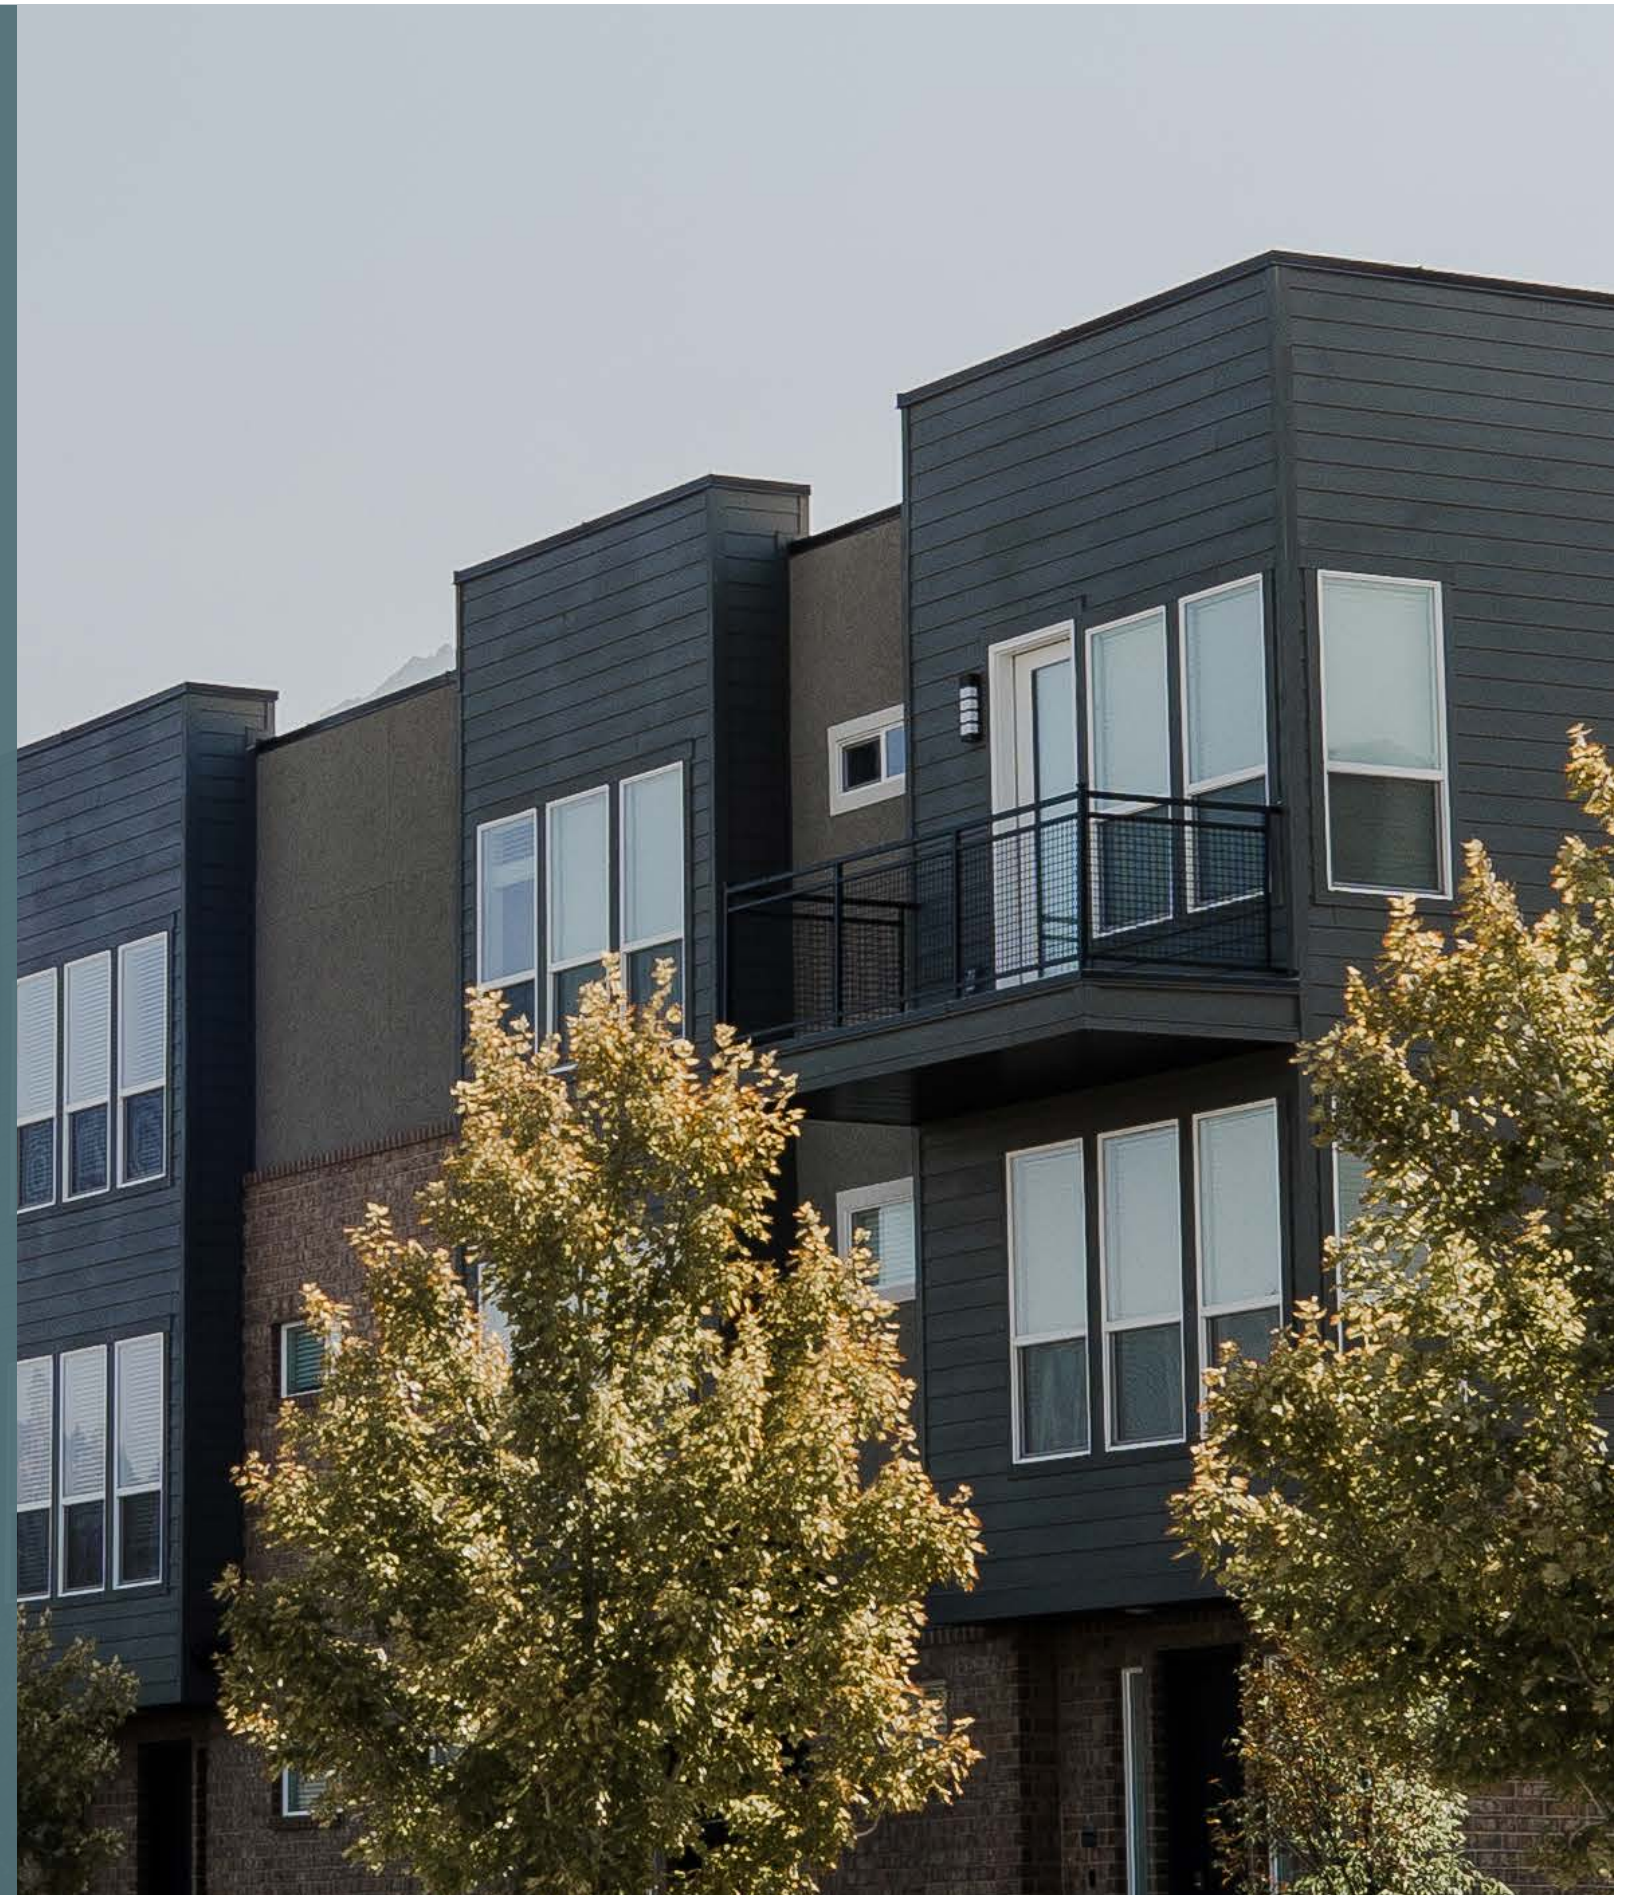

Capstone® gives property managers confidence and peace of mind with trustworthy durability

Featured in Parc at Day Dairy Apartments

The Parc at Day Dairy Apartments and Townhomes in Utah epitomizes luxury with stylish bathrooms, chef-worthy kitchens, wood flooring, and custom-painted walls for a fresh take on apartment living. The Capstone Collection provides property management peace of mind and confidence, knowing the fixtures are tested tough and backed by the industry's most comprehensive warranty.

CFG Transfer Valves

CFG's new showering products were designed to enhance the appeal and functionality of your properties while staying on budget. Our latest offerings, including transfer valves, transfer valve trim, and a matte black finish expansion of our ADA compliant handheld shower, provide the perfect blend of versatility, style, and accessibility for modern living spaces. Upgrade your multi-family properties with CFG's new showering products and offer your tenants the ultimate blend of style, functionality, and accessibility.

Versatile and Stylish Showering Solutions

CFG's transfer valves and trim offer flexibility, allowing you to customize each unit's shower system to meet diverse tenant preferences. The transfer valve trim's transitional style coordinates with most CFG product lines, ensuring a cohesive look throughout your properties and is available in Chrome, Brushed Nickel, and Matte Black. Showering systems that include both a showerhead and handheld shower provide more functionality and are the most popular consumer choice in the market today.

Enhanced Accessibility for All

CFG products are thoughtfully designed to support accessibility, making them ideal for ADA compliant units. The CFG Handheld Shower features an adjustable slide bar and user-friendly controls, providing comfort and convenience for all residents. The flexible plumbing options offered by our transfer valves allow for various showering configurations, ensuring a safe, enjoyable and adaptable showering experiences for everyone.

Valves and Trim

CFG Valves Feature

- High-quality ceramic disc technology for reliability and easy maintenance
- Self-contained, pressure-balancing spool is upstream of the water shutoff, minimizing valves sticking
- Multiple built-in plumbing connection options
- Optional IPS and CC connections in the same valve
- Prefabricated valves with Crimp Ring PEX or Cold Expansion PEX connections eliminate valve sweating
- Thin-profile design fits 2" x 3" stud walls, ideal for various applications.

CFG Cycling Valves

Cycling valves feature point-of-use reversibility—great for back-to-back multi-family applications. Handle rotates from cold to hot to control the temperature of the water.

Pressure-Balancing

No more drastic temperature changes in the shower when the toilet flushes. CFG pressure-balancing, in-wall valves adjust automatically to changes in water line pressure to keep shower temperature constant and comfortable. Water temperature remains within $\pm 3^{\circ}\text{F}$ (1°C) of the set temperature, despite demand elsewhere in the system.

CFG Transfer Valve

- Directs water to two or three different showering devices
- Use with CFG mixing valves

CFG Tub and Shower Trim

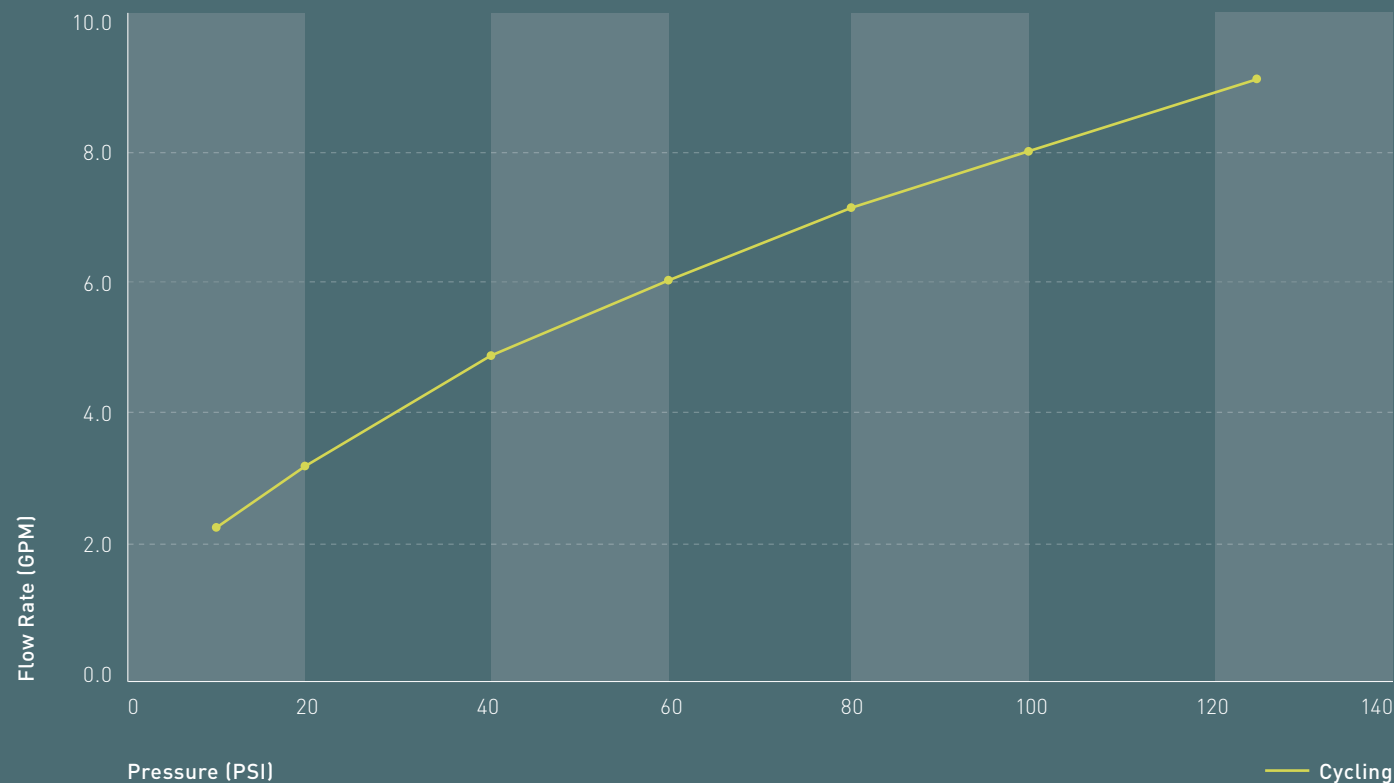

Tub/shower, shower-only and valve-only trim kits available to be paired with CFG valves. Trim kits feature stainless steel construction and interior/ exterior gaskets and weep hole. Trim kits also contain red and blue molded in color, heat-staked temperature indicators that can withstand harsh abrasives. All CFG trim kits are ADA compliant.

Shower Valves at-a-Glance

All CFG valves feature pressure-balancing ceramic disc cartridges with an adjustable temperature limit stop, allowing users to control the maximum hot water temperature to prevent scalding.

Here for You Every Step of the Way

CFG provides you with customer service as exceptional as our products. From your first interaction with our sales team to any warranty or maintenance concerns that may arise, we're here to assist you. Your CFG representative will guide you through every stage of selecting, purchasing, and installing products.

BEFORE INSTALLATION

Explore Products

If you need help finding an MRO supplier who sells CFG, please contact your sales representative or visit CFGonline.com for questions.

Purchase Products

To place an order, call 1-800-531-1600 or fax 1-800-848-6636.

Track Orders

To view your order status, track your order or check for pricing and availability online, visit B2Bconnect.moen.com. To contact your local CFG Customer Service department via phone 1-800-531-1600, Fax 1-800-848-6636 or email moencustomerservicewholesaleus@moen.com.

AFTER INSTALLATION
